AMERICAN GIRL MAY BE QUEEN

Duke of the Abruzzi Becomes
King of Greece.

COULD CHOOSE HIS OWN BRIDE

Italian Nobleman Would Be at Liberty to Marry the Woman of His Choice, in Which Event Miss Katherine Elkins of West Virginia Probably Would Become Queen of the Hellenes—King George Ready to Abdicate.

Washington, Oct. 20.—If the Duke of the Abruzzi becomes king of Greece, Miss Katherine Elkins will become queen of the Hellenes.

At least that is what "they say"—those who believe that the duke will ascend the throne of Greece.

The only trouble with the marriage of Miss Elkins, some people believe, is that the duke has been pestered by the royal family not to make a mistake. But when the duke becomes king it will be nobody's business that of the king and future queen of Greece who shall wear the crown. The regal crown is a more dazzling piece than a bauble of a ducal coronet, and it is not supposed that the coronet has entered into the romance so far as Miss Elkins is concerned.

If this dream of social circles here could come true the romance of Helen of Troy would not be in it with that of Katherine of Athens.

King George of Greece, who is much loved by most of his people and well liked by his fellow monarchs, has been ready to abdicate for some time. He has made it plain that it will be im-

ROBBER WOUNDS A FARMER

Lone Highwayman Fails to Obtain Any Money.

Minneapolis, Oct. 20.—A lone highwayman held up and shot Peter Smith, a farmer of Plymouth township, Hennepin county, between Twin Lakes and Keegan's Lake.

Smith was driving his team toward Twin Lakes to visit a friend when the marauder jumped from a clump of trees and landed on the seat of the wagon and started to shoot. The first bullet lodged in the seat of the wagon. The next shot sent a ball through Smith's neck, inflicting a dangerous wound.

The farmer grappled with the intruder, pinning him down with one hand and driving back toward Keegan's Lake with the other. He had traveled about a mile when the horses became frightened and ran away.

Releasing his grip on the robber, Smith tried to control his runaway steeds with both hands, and while he was tugging at the lines the thief jumped from the wagon and escaped.

Colonel Lounsbury III.

Washington, Oct. 20.—Colonel C. A. Lounsbury of North Dakota, now an examiner in the general land office, is ill at his home here, suffering from effects of two wounds received during the Civil war. His condition, while not serious, is unsatisfactory.

WILL KEEP COURTS BUSY MANY YEARS

Titles to Farms in Minnesota
Badly Tangled.

Minneapolis, Oct. 20.—On the outcome of the actions brought by the United States against the county officials of Becker, Clearwater and Mahanomen counties, depend the titles to upwards of 500 farms in the old White Earth Indian reservation in Minnesota. The government is trying to ascertain who of the Indians are real aborigines, and who, through the admixture of foreign blood, are no longer wards of the government, for a full-blooded Indian cannot transfer his land, while a "breed" can.

The task of ascertaining when an Indian is not an Indian has been assigned to John Vandersluis, who is now in Detroit as the special examiner for the federal circuit court, to determine the exact judicial status of the White Earth Indians.

All fullbloods of Indian tribes of the United States are wards of the government, and all the "breeds," no matter what the fraction, after receiving their land allotments, are citizens of the state in which they live.

This rule of the Indian department has started something on the White Earth reservation which is expected to keep the courts busy for many years. It has developed that many of the White Earth Indians who received their land allotments have disposed of them. These allotments or farms, are taxable in Becker, Clearwater and Mahanomen counties and the county authorities have placed them on the tax rolls.

After this was done, it was discovered that many of the allotments were made to "fullbloods," who are wards of the government and have no right to transfer their property without the sanction of the secretary of the interior.

It also has appeared that some of the supposed fullbloods have represented themselves as "breeds" in order to sell their land. When it was revealed that the wards of the government had disposed of their allotments and that the county authorities had proceeded to levy taxes, the government intervened and brought action against the officials of Becker, Clearwater and Mahanomen counties, to restrain them from levying and collecting the taxes.

Serious complications in land titles are certain to follow the ruling of the courts on the standing of the Indians.

BOARDERS SAVED TRUNKS

But Let Little Baby Perish in the Flames.

Duluth, Oct. 20.—They saved the trunks, but the baby was left to perish when the boarding house of Angelo Lauretta at the Hull Rust mine, near Hibbing, burned. Six boarders were asleep in the house. Mrs. Lauretta and her husband were down town, and their four months-old baby was asleep. The men were awakened by the fire and got their trunks out, but they did not know about the baby until it was too late.

TEN JURYMEN ARE CHOSEN

Only Two More Needed to Complete Arbogast Jury.

UNDERGOES ANOTHER ORDEAL

Widow of Murdered St. Paul Butcher Forced to Again Hear Herself Accused of Killing Her Husband When Clerk Reads Indictment to New Jurors—Prisoner Weeps During the Reading of the Document.

St. Paul, Oct. 20.—Ten of the twelve men who will decide the guilt or innocence of Mrs. Mina Arbogast, on trial before Judge Orr for the murder of her husband, have been selected. Eleven men had been sworn on the jury, but the second man, selected late Monday afternoon, was excused by agreement of counsel for both sides. He is Clement N. Nielson, who was released from jury service for personal reasons.

Early in the afternoon that part of the regular panel at the disposal of County Attorney Richard D. O'Brien for criminal court service had been exhausted after the seventh juror had been ordered into the box. There were a number of other talesmen on duty in the civil branches of the district court and Judge Orr sent for all those who could be spared. Three-quarters of an hour later another dozen jurymen filed into the room.

All during the recess Mrs. Arbogast was surrounded by her daughters Ida, "Babe" and Mrs. Ulmer, her attendant and another woman friend. She occasionally shook her head at some remark, but never lifted the heavy veil which keeps her features completely obscured from view.

When court was called to order Mrs. Arbogast passed through the ordeal of hearing herself accused in legal formula, for the second time in two days, of having murdered her husband. The newly arrived jurymen had not been present when the indictment was read, so it was necessary to read it, crowded with awful details, a second time.

The suspense was deep while the clerk was unfolding the document, and as his words resounded through the court, detailing the particulars of the crime, Mrs. Arbogast shuddered pitifully and seemed to shrink in her chair to escape observation. Her tears were noticeable.

PHYSICIAN SHOT BY WIFE

St. Paul Man Probably Fatally Wounded.

St. Paul, Oct. 20.—Dr. George M. Doran, for many years a well known physician of St. Paul, was shot in the abdomen and possibly fatally injured by his wife, following a quarrel in the doctor's office, Seventh and Robert streets. The wound is such that the physicians at St. Joseph's hospital, where Dr. Doran was taken, are unable to say just what the outcome will be, although they assert that the injury is a grave one.

Mrs. Doran was taken to the central police station, where she was questioned. Later she was placed in the county jail, pending a fuller investigation.

Mrs. Doran says she shot her husband in self-defense. According to her, she quarrelled with the doctor over his indifference and other domestic troubles, following which she was attacked by him. Then, it is said, she fired.

OPENLY TRAFFIC IN WIVES

Foreigners in Canada Accused of Selling Women.

Winnipeg, Man., Oct. 20.—Rev. H. S. Magee, field secretary of the Temperance and Moral Reform association, addressing the Young Men's Christian association at Kinsale, said: "There is a colony of foreigners in Port Arthur who openly traffic in wives, selling women for \$1 to \$5 apiece, with no law to check them."

Mr. Magee said he deprecated the appointment of Joseph Rogers as head of the provisional police department. "He was appointed against our protest," said he, "and we will have to abide by it, but so soon as he offends we must all demand his removal."

Murderer Executed.

Johnstown, Pa., Oct. 20.—Thomas W. Johns, who shot and killed his wife and mother-in-law Sept. 21, 1908, was hanged in the yard of the county jail at Ebensburg, Pa.

McCarren is Dying.

New York, Oct. 20.—It looks as though Senator Patrick H. McCarren is dying. The senator has suffered a severe relapse.

Fine Furs A Large Display

We are making a large display of fine furs. These are of a superior quality and are a very dependable kind. If you contemplate purchasing a new fur see our line at once while it is large.

"MICHAEL'S"

Morie Silks The New ones

We now have the Morie silks on display, which are used so much for waists and trimmings. These are 26 inches wide and sell at \$1.25 the yard.

"MICHAEL'S"

TO BE HELD IN NEW ORLEANS.

Convention of Lakes-to-the-Gulf Deep Waterway Association.

New Orleans, Oct. 20.—Typical of the rapidly growing public demand for improved inland water freight routes, the convention of the Lakes-to-the-Gulf Deep Waterway association, which is to be held in New Orleans Oct. 29 and 30 and Nov. 1 and 2, will break all records of similar gatherings both in the matter of attendance and prominence of the men who will come as delegates. Headed by President Taft, more senators, foreign diplomats, heads of departments, congressmen and leaders in varied lines of endeavor will come to New Orleans to take part in the proceedings than have ever before been gathered together for a similar purpose on American soil.

The report of the inland waterway commission on the water-carried commerce of Europe, which is expected to be made to the president just before the convention assembles, will show, among other things, that with comparatively insignificant streams, Holland, France and Germany have succeeded in building up a monster and hugely profitable commerce and at the same time saving shippers more than two-thirds of rail haul cost. It is highly probable that the report will also show that this great saving has given Europe a huge competitive advantage over America in most of the foreign markets. With this data before it, the convention will be in the best position in its history to obtain proper recognition from congress of the justice of its demands for a navigable waterway from the Great Lakes to the Gulf.

President Philip Werlein of the New Orleans Progressive union, which will entertain President Taft and the delegates, announces a practically completed programme.

The battleship Mississippi, the armored cruisers New York, Montana and North Carolina, and four torpedo boat destroyers will take part in the president's reception and will represent the navy during convention week.

Vice President Sherman, Speaker Cannon, more than 150 congressmen, between twenty-five and thirty governors, and many foreign ambassadors will attend the convention.

LARGEST YIELD OF WHEAT

Minnesota's Crop Bigger Than That of Any Other State.

St. Paul, Oct. 20.—Minnesota had the best yield per acre of any state in the Union in rye and hay and the second best in wheat during the season just closing. Figures showing these facts were compiled by George Welsh, immigration commissioner, from the government crop report. Besides that, Minnesota had the largest yield of wheat of any state in the Union.

Minnesota's wheat crop is figured at 94,562,000 bushels, an average of 16.5 bushels per acre. Wisconsin was the only state with a better average, 19 bushels; but its total crop was only 2,318,000. North Dakota raised 87,253,000 bushels, nearly as much as Minnesota, but the average yield was only 13.7. Iowa's average was 14.7 and South Dakota and Nebraska had averages of about 14 bushels.

Minnesota's average yield of rye was 19 bushels per acre and the total crop, 1,748,000 bushels. South Dakota averaged 18.5, the second best. Michigan raised the largest crop, but her average yield was only 15.5.

Minnesota's average yield of hay this year was 1.75 tons per acre, Iowa coming next with an average of 1.62. Minnesota's total yield was 1,622,000 tons, several states having larger totals. Iowa raised 5,910,000 tons.

CELEBRATION IN SAN FRANCISCO City Rejoices Over Her Rise From Ruins.

San Francisco, Oct. 20.—Soldiers and sailors from six nations, the warships of which roared salutes in the harbor, joined more than 500,000 persons in celebrating the opening of the five days' festival here to mark the discovery of San Francisco by Don Gaspar de Portola.

Bannered by day and illuminated by night as it never had been before, San Francisco sang its recovery from ruin, and flung herself into the carnival spirit that marked the symbolic return of the doughty captain of Spanish dragons with a fever that established new precedents in public festivals around the Golden Gate.

The festival was opened with the celebration of solemn high mass at St. Mary's cathedral. Archbishop Patrick Riordan, Bishop Dennis O'Connell and other church dignitaries taking part in the services, which were attended by the Knights of Columbus, Governor Gillette, Mayor Taylor and other state and municipal officers.

Nicholas Covarrubias, who as Don Gaspar de Portola, made his formal entry to the city after sailing through the Golden Gate.

Riding on his charger at the head of more than 6,000 soldiers and sailors, Don Gaspar made a triumphant march through the city to Union square, where he was presented to Miss Virginia Rague, queen of the festival.

The drinking of President Taft's toast to San Francisco in Union square where the militiamen and representatives of the six nations that took part in the street parade were drawn up in hollow squares, was followed by a luncheon to Don Gaspar and Queen Virginia at the St. Francis hotel. Band concerts in the parks, the welcoming of visitors aboard the foreign warships and public games made up the programme.

Wisconsin Man Drowned.

Marquette, Mich., Oct. 20.—Timothy Hudson, chief engineer of the steamer Wildar, fell from the deck here and was drowned. He was seventy years old and lived in Green Bay, Wis.

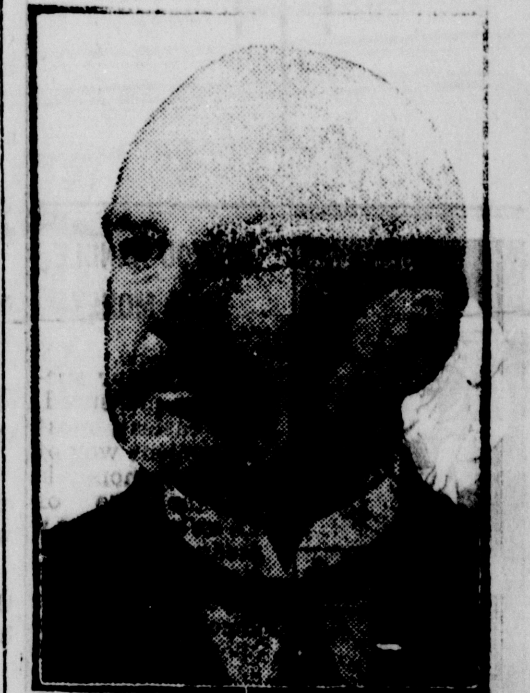

Minnesota Pioneer a Suicide.

Warren, Minn., Oct. 20.—Fred Nelson, a pioneer resident, hanged himself in a saloon here. He was a victim of drink and worry.

IOWA MAN MAY BE NAMED MINISTER TO CHINA.

Dawson Likely to Be Named Minister to China.

Washington, Oct. 20.—There is a rumor here that Thomas C. Dawson of Iowa, until recently minister to Chile and now en route to London from South Africa, will be named to the newly created post of minister to China.

THOMAS C. DAWSON.

American affairs in the state department, will be sent as minister to China. With the president and Secretary Knox out of the city, it is impossible to obtain any definite information concerning the report.

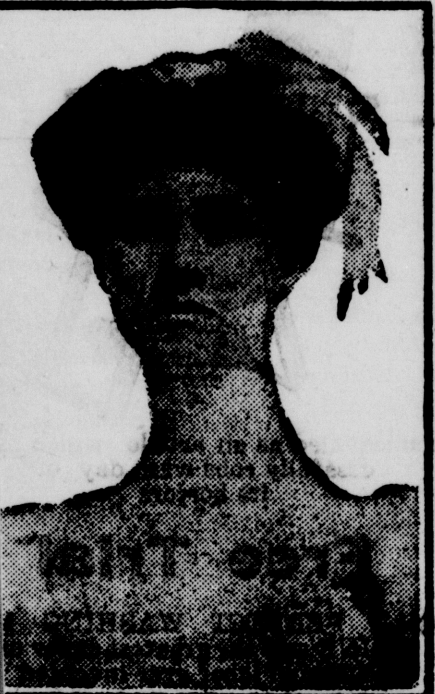

GOOD GAIN OVER LAST YEAR

Shown in the Corn Crop of South Dakota.

Pierre, S. D., Oct. 20.—The state census department has prepared its estimate on the corn crop of this state for this year, but it is subject to slight revision, as it has been prepared somewhat hurriedly that it may be used by Governor Vessey in his Southern and Eastern trip. The showing is 2,395,000 acres planted to corn this year, a gain of 136,000 acres over last year. The total yield is placed at 86,388,000 bushels, a gain of 10,855,000 bushels over last year. Bon Homme leads the corn counties this year with a yield of 7,850,000.

Fatally Cut in Fight.

Duluth, Oct. 20.—Toney Green, a meat cutter employed by a firm at Gilbert, is in a hospital in that village suffering from knife wounds, which may prove fatal. He was one of a number of men that engaged in a free-for-all fight in a saloon there. One arrest has been made and the police are after others.

MISS KATHERINE ELKINS.

able for Greece to rehabilitate herself so long as her policies are as at present. In other words, the information received in Washington makes it plain that outside help is near.

The popular choice seems to be the Duke of the Abruzzi, whose royal relations are abundant in nearly every European country, and, moreover, his succession to the throne will mean the support of England and France and Austria.

It is not supposed that such an offer will be made to the Italian duke conditions as to his wife. As a rumor of Miss Elkins' engagement in antedates the decision of a king in the Grecian throne, it is understood that he is at liberty to do as he pleases. It is likely, too, either King George before his abdication, or King Victor Emmanuel, will ennoble her, if that were possible with full heraldic honors.

T PLAYS GOLF IN TEXAS

President Enjoying Himself on His Brother's Ranch.

Groeg, Tex., Oct. 20.—President Taft's vacation started off with a blinding rain. By 10 o'clock, however, the rain had ceased and the sun came out brilliantly, drying the ground and making it possible for the president and his brother, Charles P. Taft, to try out for the first time the golf links that were especially set out for the president's visit. The score was not given out.

Louise Taft acted as caddy for her president and a Mexican farm boy carried the sticks for Charles P. The soil was so sticky as a result of the rain and so many mud puddles were encountered that the president announced himself not satisfied with the result and he and his brother returned around the links again in the afternoon.

The remainder of the day the president strolled about the grounds surrounding the ranchhouse and picked a place on the beach for a Corpus Christi bay.

CUYUNA IS GROWING

Aitkin Age Reports that the New Town is Making Good Progress Toward a Boom

The new town of Cuyuna is making steady progress and Hon. T. R. Foley reports the sale of one of his houses there to the Rogers-Brown Ore Co., and also the sale to them of six more lots for building purposes. At the first shaft the miners are getting out a stock pile and at the new shaft being sunk the work has gone down to a depth of something over eighty feet and it is expected that the ledge will be reached in a couple of weeks.

The railroad work in that vicinity is lively and everyone is looking for a big boom on the new range as soon as the trains get in. The brisk demand for lots has caused the Foley Land company to open an addition to the original plat for sale, and they are getting a great many inquiries. Early next spring will see splendid progress all over the range and there are no more doubters as to the coming greatness of the property.—Aitkin Age.

Fall colds are quickly cured by Foley's Honey and Tar, the great throat and lung remedy. The genuine contains no harmful drugs. H. P. Dunn mwf-w

TREMENDOUS

COAT SALE!

son elected.

ONE OF NATIONAL LEADERS

"Holland," Well Known Writer so
Refers to Brainerd Citizen in
a Recent Article

"Holland," the well known writer,
in an article entitled "National
Leaders We Have Won From Canada"
has the following to say of a citizen
of whom Brainerd is justly proud:

"Among architects of the United
States who have gained distinction is
Sydney R. Badgley, recognized the
world over as a specialist in church
architecture. Horatio Walker is a
leading American water-color artist.
Both men are Canadian born. So,
also, are at least two leaders in Amer-
ican medicine. Dr. Walter Courtney,
as chief surgeon of the Northern Pa-
cific railway since 1888, and as
former president of the Minnesota
state medical society and of the Upper
Mississippi Medical society, is one of
the best known men of medicine of
our Northwest."

Music, etc.
It is said that there is but one step
from the sublime to the ridiculous.
The Texas Ranger company took that
step and tumbled off. It is the ap-
parently uniform opinion of theatre
goers in Brainerd that their equal for
"buminess" has not hit Brainerd for
many moons. They were such poor
actors that the were actually funny.

DR. BRUNS who fits glasses
correctly will be
at the Ransford hotel, Oct. 27 and
28. Eyes examined free.

NURSES' ALUMNAE MET

Alumnae Association of N. P. B. A.
Hospital Training School Held
Annual Session

The first annual meeting of the
Alumnae association of the N. P. B.
A. Hospital training school for
nurses was held in the nurses' build-
ing, on October 16th, 1909, at 10:30
a. m. The following officers were
elected for the ensuing year:

President, Mrs. Geo. Grewcox,
Brainerd, Minn., re-elected; first
vice president, Miss Mary Gavin,
Menosha, Wis., re-elected; Second
vice president, Miss Mary Strickler,
Brainerd, Minn.; secretary and treas-
urer, Miss Nellie Rose, Kent, Wash.

Four new members were added:
Miss Adele Weber, Miss Irene Eng-
lish, Miss Eva Marsh and Miss Jose-
phine McHugh.

Miss L. Whittaker and Miss M.
Strangways were made honorary
members.

The regular annual meeting of the
association shall be held during
October, at such time and place as
the officers may appoint.

MRS. JOHH KOEPL DIED SUDDENLY

Taken Ill Tuesday Morning and Be-
came Unconscious and Never
Rallied Thereafter

WAS WELL KNOWN IN THIS CITY

Family Has Resided in the Town of
Long Lake for a Number
of Years

Mrs. John Koeppl, wife of a promi-
nent farmer in the town of Crow
Wing, died today, after a brief illness.
She was perfectly well up to Monday
night. When she went to get up
Tuesday morning, she was unable to
get out of bed and was helped to a
chair by her daughter. She became
unconscious a few minutes later and
never rallied.

Death is said to have been caused
by the breaking of a blood vessel in
the brain. No funeral arrangements
have been announced as yet. The
family have been residents of the
county for a long time, coming here
from the southern part of the state.

Mrs. H. E. Bell, Wausau, Wis.,
writes: "Before I commenced to take
Foley's Kidney Pills I had severe
pains in my back, could not sleep,
and was greatly troubled with head-
ache. The first few doses of Foley's
Kidney Pills gave me relief and two
bottles cured me. The quick results
surprised me and I can honestly rec-
ommend them." H. P. Dunn. mwf-w

MUSIC AND DRAMA

The Yankee Doodle Stock company
will return to Brainerd, Thursday,
Oct. 21st, for an engagement of three
nights only. This attraction is un-
doubtedly one of the best organiza-
tions of its kind that has ever ap-
peared in our city. The public have
attested their appreciation of the
performances giving by turning out
in large and enthusiastic audiences
every night during the past week.

The opening play for the return
engagement will be, "Hello Bill,"
one of the funniest farces ever written.
On Friday night, the bill will be a
comedy drama, "The Great Deveraux
Case." On Saturday night a sensa-
tional melo-drama entitled, "Tracked
Around the World." At the Saturday
matinee, "The Cutest Girl in Town,"
a society drama will be presented.

This company is the best organiza-
tion of its kind that has ever ap-
peared in this city. Manager Hall
is to be congratulated on securing
them for a return engagement.

Foley's Honey and Tar clears
the air passages, stops the irritation
in the throat, soothes the inflamed
membranes and the most obstinate
cold disappears. Sore and inflamed
lungs are healed and strengthened,
and the cold is expelled from the
system. Refuse any but the genu-
ine in the yellow package. H. P.
Dunn. mwf-w

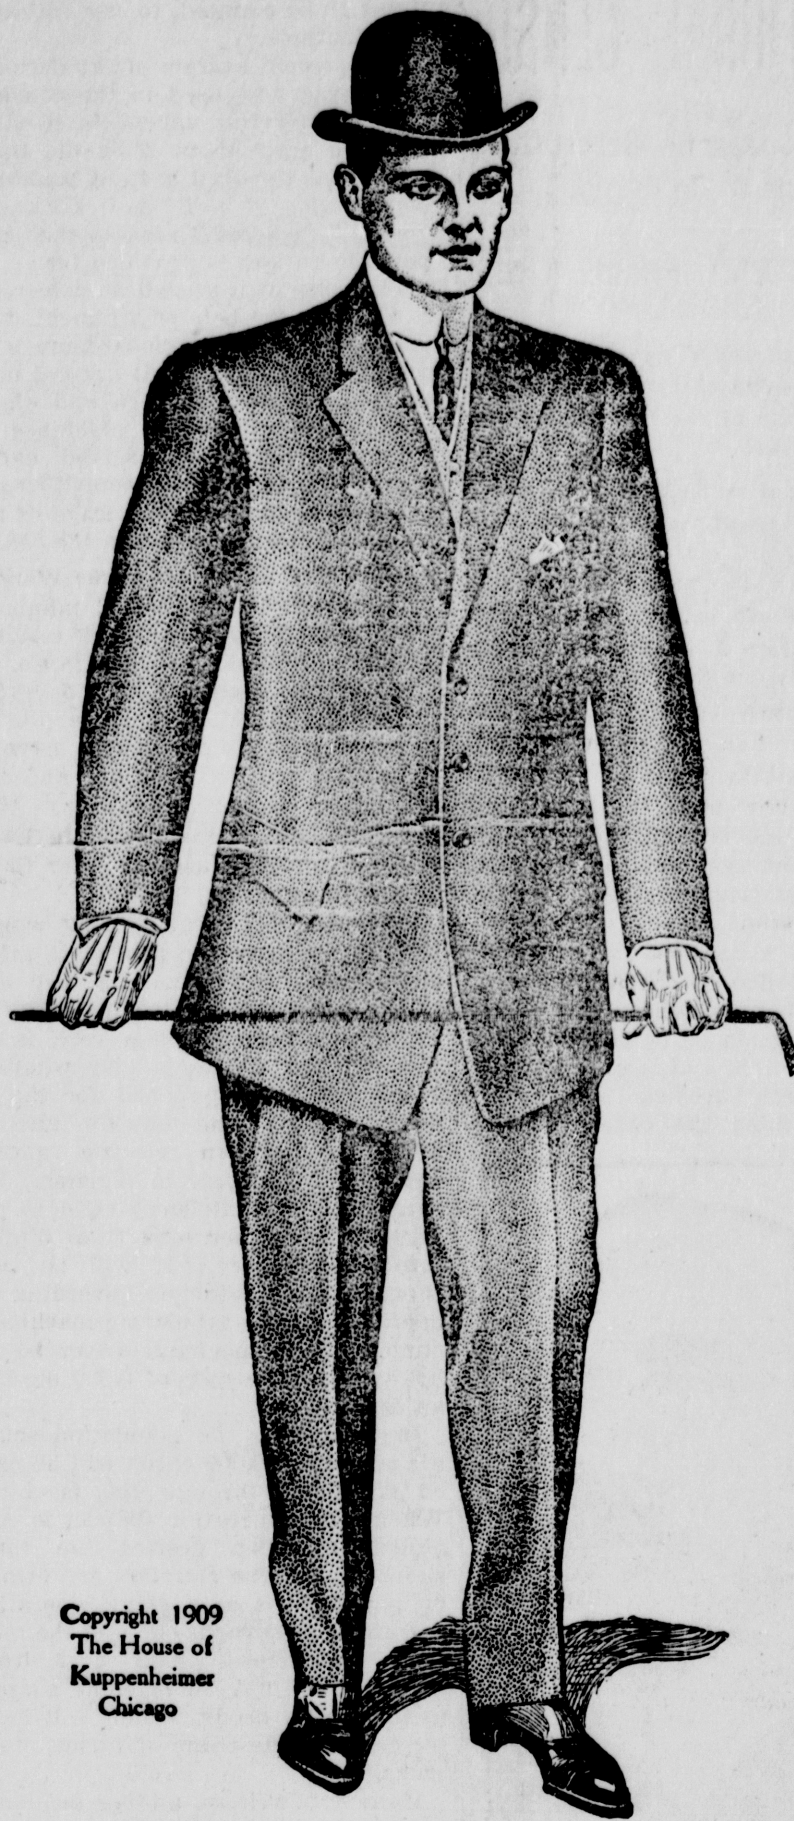

Marriage Licenses

The following licenses to wed have
been granted in the past week by
W. A. M. Johnston, clerk of the dis-
trict court.

October 13—Christ Ahrens, of
Jackson county, and Elsie Lueck;
Wm. Beirman and Anna Lueck; Mar-
ion Cunningham and Daisy Ingraham.
October 14—George Kniskern and
Maude Scofield.

October 16—Lewis Irwin Paddock
and Mollie Edna Avery.

When Your Joints are Stiff
and your muscles are sore from cold or rheu-
matism, when you slip or sprain a joint, strain your
side or bruise yourself, Painkiller will take out the
soreness and fix you right in a jiffy. Always have
it with you and use it freely. The oldest, the
cheapest and the best medicine for internal and
external aches and pains in man is Perry Davis'
Painkiller, and for over seventy years it has been
the great standby for emergencies in thousands
of families all over the world. Don't go home
without a 50c. or one of the new size. 35c bottles

Making This Good Store BETTER

YOU'VE got to bring up a store as you bring
up a human being: watch for weaknesses
—develop its good points.

We're building this business that way—holding
fast to the idea that our success is in your satis-
faction.

No department is strong-enough, if we can make
it stronger. No values good-enough, if we can
offer better.

We're more-than-usually proud to show you the
latest offering in the famous good clothes from

The House of Kuppenheimer

In their style, worth, fit and economy they give
clear proof of the policy of this store to serve you
always a little better.

They're here to see now—and the stock is com-
plete

Winter Caps \$.50 to \$2.50

Gloves to match that new suit or overcoat. Prices to suit
your taste. **Fall Line Complete.**

NO DYSPEPSIA OR UNDIGESTED FOOD

Heartburn, Gas, Headache and Other
Misery Goes before You
Realize it

RELIEVES IN FIVE MINUTES

A Little Diapepsin Now Will Make
You Feel Fine and End Stomach
Trouble Forever

There would not be a case of indi-
gestion here if the readers who are
subject to Stomach trouble knew the
tremendous anti-ferment and diges-
tive virtue contained in Diapepsin.
This harmless preparation will di-
gest a heavy meal without the slight-
est fuss or discomfort, and relieve the
sourst, acid stomach in five minutes,
besides overcoming all foul, nauseous
odors from the breath.

Ask your pharmacist to show you
the formula plainly printed on each
50-cent case of Pape's Diapepsin,
then you will readily understand why
this promptly cures indigestion and
removes such symptoms as heartburn,
a feeling like a lump of lead in the
stomach, belching of gas and eructa-
tions of undigested food, water brash,
nausea, headache, biliousness and
many other bad symptoms; and be-
sides, you will not need laxatives to
keep your stomach, liver and intes-
tines clean and fresh.

If your stomach is sour or full of
gas or your food don't digest, and
your meals don't seem to fit, why not
get a 50-cent case from your druggist
and make life worth living? Absolute
relief from stomach trouble and per-
fect digestion of anything you eat is
sure to follow five minutes after, and,
besides, one case is sufficient to cure
a whole family of such trouble.

Surely, a harmless, inexpensive
preparation like Diapepsin, which will
always, either at daytime or during
night, relieve your stomach misery
and digest your meals, is about as
handy and valuable a thing as you
could have in the house.

C. R. Kluger, the jeweler, 1060
Virginia Ave., Indianapolis, Ind.,
writes: "I was so weak from kidney
trouble that I could hardly walk a
hundred feet. Four bottles of Fol-
ey's Kidney Remedy cleared my com-
plexion, cured my backache and the
irregularities disappeared, and I can
now attend to business every day,
and recommend Foley's Kidney Rem-
edy to all sufferers, as it cured me
after the doctors and other remedies
had failed." H. P. Dunn mwf-w

TWENTY YEARS AGO

Hans Hagan, of Brainerd, was
found murdered near Breckenridge,
Minn., and Andrew Olson, also form-
erly of this city, was arrested at Du-
luth charged with his murder. Olson
was enamored of Mrs. Hagan, it is
said.

Mrs. W. J. Davenport, a daughter
of Mr. and Mrs. J. A. Bixby, died
very suddenly last Saturday.

On Tuesday of this week, Miss
Kittie Marks, of this city, was united
in marriage at Conneaut, Ohio, to Mr.
J. R. Crane, a capitalist of that place.
The bride is a sister of Mrs. J. T. San-
born.

J. W. Slipp has bought the grocery
stock of F. A. Bradbury, at the cor-
ner of Sixth and Laurel streets.

H. C. Miller is building a brick
vener building at the corner of Sixth
and Maple streets for Max Shapiro.

Both Boys Saved

Louis Boon, a leading merchant of
Norway, Mich., writes: "Three bot-
tles of Foley's Honey and Tar abso-
lutely cured my boy of a severe
cough and a neighbor's boy who was
so ill with a cold that the doctors
gave him up, was cured by taking
Foley's Honey and Tar." Nothing
else is as safe and certain in results.
H. P. Dunn. mwf-w

A GOOD REASON

Brainerd People Can Tell You Why
It is So

Doan's Kidney Pills cure the cause
of disease, and that is why the cures
are always lasting. This remedy
strengthens and tones up the kidneys,
helping them to drive out of the body
the liquid poisons that cause back-
ache, headache and distressing kidney
and urinary complaints. Brainerd
people testify to permanent cures.

Miss Catherine Bone, 601 S. 6th
street, Brainerd, says: "In view of
my own experience with Doan's Kid-
ney Pills and that of other persons,
I know them to be a reliable remedy
for all complaints arising from dis-
ordered kidneys. Not long ago I
procured a box of this excellent prepa-
ration from H. P. Dunn's drug store
when suffering from a weakness and
a dull ache across my back. It only
required a few doses to relieve me
and my health greatly improved in a
short time. I consider Doan's Kidney
Pills worthy of the highest endorse-
ment."

For sale by all dealers. Price 50
cents. Foster-Milburn Co., Buffalo,
New York, sole agents for the United
States.

Remember the name—Doan's—and
take no other.

Table Cutlery.

The first table cutlery made in the United States was made in Greenfield, Mass., in 1834.

The Most Remarkable Guarantee Ever Made on a Heating Stove

We have received a letter from the president of the Cole Manufacturing company which specifically states that they can guarantee Cole's Original Hot Blast Stove to save a third in fuel over any lower draft stove of the same size with soft coal, slack or lignite; it is guaranteed to hold fire from Saturday night until Monday morning; guaranteed to have a smoke-proof feed door; guaranteed to remain air-tight as long as used; guaranteed to give a uniform heat day and night with soft coal, hard coal or lignite; guaranteed to use less hard coal or heating a given space than any base burner with the same size fire pot, and guaranteed to heat the rooms from one to three hours in the morning with the fuel put in the day before (which does away with kindling or rebuilding the fire each morning).

This guarantee comes with Cole's Hot Blast, which can be bought only from us. When you analyze this guarantee and see how they state in black and white just what it will do in comparison with other soft coal stoves, and even with hard coal base burners, it is safe to say that the majority of stoves bought this season for heating purposes will be the famous Cole's Hot Blast, for which we are the exclusive selling agents for this town. We have these stoves on our door and will be pleased to show them to every one interested. Come soon.

Signed

D. M. CLARK & CO.

BRING YOUR WIFE

when you are looking for a home to buy. Bring your friends if you are looking for an investment. We have everything in Real Estate, Lots and Dwellings. It will pay you to call, whether you wish to buy or sell.

SMITH BROS.

Sleeper Block

Why Cole's Hot Blast Is Supreme Over All Heating Stoves

Every part of Cole's Hot Blast Heater is a stove masterpiece. And government patents permit them on Cole's Hot Blast only.

Every little detail contributes towards making Cole's Hot Blast the fuel saver, a perfect heat radiator, a stove that holds fire from Saturday night to Monday morning, and the cleanest stove ever set up.

\$12 up Remember Every Stove is Guaranteed

(See accompanying illustration)

The air-tight construction holds back the heat and gases wasted up the chimney with other stoves. The hot blast draft burns the 15,000 feet of gas which is in every ton of soft coal. The heavy castings surrounding the fire protect the body of the stove at all points, and the sensitive, all-steel, radiating surface radiates all the heat into the rooms.

One season's use will cut your fuel bill in two and give you satisfaction such as you never believed possible with a heater. Will you come in and see?

D. M. CLARK & CO
SOLE AGENTS

TAKING OF THE NATIONAL CENSUS

Two and a Quarter Billion Questions to Be Asked.

EXPERTS WILL FRAME THEM.

Each Query Costs Tens of Thousands of Dollars—Answers to Be Compiled by Electricity at the Rate of 3,500 or 4,000 an Hour.

The national census of the United States partakes of the nature of both an inventory of material possessions and a social, industrial, educational and moral stock taking. The constitution requires a census every ten years as the basis for the reapportionment of representatives in congress. Fewer even than six questions, the number asked in the first census of 1790, would now meet the basic need from which the census sprang. But progress in general and national expansion in particular have demanded more information.

It may be asked, "What questions shall be included in the schedules of the census bureau where each costs tens of thousands of dollars?" Upon this point there is a difference of opinion, and since bureaus, like individuals, are fallible the census reports

E. DANA DURAND.

have been criticised, often severely, by men well qualified to judge. Profiting by the past, the officials of the thirteenth decennial census have said to a body of experts, "Put your heads together and help us to compose schedules covering population, agriculture, manufactures and mines and mining which shall best fill the demands of business, science, progress and human welfare."

So the classes of men which have supplied competent critics in the past have now furnished those who are about to complete the census in Washington. They came as salaried, expert special agents to give the country the benefit of study and experience to make the census of 1910, it is hoped, the most valuable ever taken anywhere in the world. There are among these men professors, occupying many different chairs, and industrial, farm, stock, mining and other experts. The schedule of manufactures has been presented for criticism to commercial bodies, and the tentative agricultural schedule has been examined by experts of the department of agriculture, by state commissioners of agriculture and others.

Many Enumerators to Be Employed. Census Director E. Dana Durand is the administrative head of the bureau, which is under the jurisdiction of Charles Nagel, secretary of the department of commerce and labor. Assistant Director W. F. Willoughby, with Dr. J. A. Hill, will have immediate charge of the technical work of the bureau. The population returns as of the date April 15, 1910, will be obtained by 65,000 enumerators under the oversight of 330 supervisors. The agricultural schedule also will be carried by 45,000 of the enumerators and will cover the farm operations of 1909 and the farm equipment on April 15, 1910.

The great importance of this schedule will be realized from the fact that about three times as much capital is invested in agriculture as in manufactures. Six million farms will be visited, and it is expected that it will develop that fully 15,000,000 people are engaged in agricultural pursuits. About 2,000 special agents will begin the collection of statistics of manufactures for the year 1909 on Jan. 1. Three hundred of the regular enumerators will carry schedules of manufactures in certain districts.

New Compiling Device.

About 3,000 clerks in addition to the permanent force of the census bureau will be employed in Washington to compile the statistics from the schedules. Uncle Sam's up to date in a mechanical way in the present case is attested by the new equipment which is to be installed to facilitate the labor of compilation. The use of machinery has made it possible to enlarge the scope of investigation included in the schedule, because it is now possible to deal with a mass of data which could not have been handled by the old method of making tallies. In 1900 the schedule of population alone contained

twenty-five questions. Take the population of 1910 at 90,000,000, with the same number of questions, and this will mean no less than 2,250,000,000 of items to be counted, to say nothing of combinations.

The present system of tabulating returns was first used in the census of 1890. The vital factor is a simple thing, a card about 3 by 6 1/2 inches, with holes punched in it. A position or combination of positions is assigned to "white," "colored," etc., so that every possible answer is provided for.

The schedules are all transferred to cards with the help of a punching machine. This has a keyboard much like a typewriter. The cards are fed under the punches from a pack and ejected automatically. These machines, of which 300 have been ordered, can be operated at the rate of from 400 to 500 cards an hour with an average of thirteen or fourteen strokes to the card.

How Tabulating Machines Work.

There will be a hundred tabulating machines. They somewhat resemble an upright piano in appearance. In place of the keyboard there is a feed plate and an arm carrying a pin box near one end. As a card may have between 200 and 300 positions and as a tabulating machine has only sixty counters, it is necessary to run a card through several times in order to get all the information.

After deciding what data are wanted the little cups in the feed plate affected are filled with mercury, and electric connections are made with the counters. Then when a card is fed the pin box descends and wherever holes have been punched for the answers required the pins dip into the mercury and an electric current causes the counters to register. The card itself is sufficiently rigid to prevent all the other pins from dipping into the mercury. It will be seen, then, that the principle governing the operation of the tabulating machine is simple. This mechanism can be fed by hand at the rate of 3,500 or 4,000 an hour.

In tabulating the population schedule alone 90,000,000 cards will be passed six times through the machines. When an enumeration district is completed or when desired the totals shown by all the counters are printed on paper tapes at a single operation, and these are drawn out and the numbers transcribed. The agricultural schedule will have a machine adapted to its special needs, which will register and add the value of farms, stock, crops, etc.

Many typewriters, adding machines, combined writers and adders and machines for computing percentages and performing other arithmetical operations will be used. Heretofore much leased tabulating machinery has been used at large expense. For this census very little will be required, and it is estimated that this change of policy will save many hundreds of thousands of dollars.

BELIEVE HE WAS MURDERED

Richter's Relatives Discredit Suicide Theory and Will Investigate.

Dubuque, Ia., Oct. 29.—That Lieutenant Carl Richter, whose death on board the Marietta at Hampton Roads was ascribed to suicide, was a victim of foul play at the hands of some person who robbed him, is the expressed belief of members of his family in Dubuque. Dr. Richter, who is in the marine service at San Francisco, has arrived here and after the funeral will proceed to Old Point Comfort to investigate. It is said that jewelry was stolen from the dead man and it is believed Richter was killed to prevent disclosures.

FIERCELY DENOUNCE CRIME

Resolutions Adopted by Executive Council of Labor Federation.

Washington, Oct. 29.—Resolutions fiercely denouncing the "murder" of Francisco Ferrer, the Spanish revolutionist, who recently was shot in Barcelona, in which, after referring to him as a "martyr," it was declared that his martyrdom has given "the cause of liberty a great impetus, not only in Spain and in European monarchial countries, but everywhere that human aspiration for freedom yet seeks attainment," were adopted at the session of the executive council of the American Federation of Labor.

"We, on our own personal behalf as well as in the name of America's workers and the whole people," the resolutions declare, "express our intense indignation, horror and our strongest protest against the murder of Francisco Ferrer by direction of the Spanish government."

Taken in connection with the action of the supreme court of the District of Columbia in sentencing President Gompers, Secretary Morrison and John Mitchell of the American Federation of Labor, to serve terms in jail for contempt of court, the concluding paragraph of the resolution is looked upon here as significant.

It declares that "we take this occasion of the military murder of a man whose real offending was speaking, writing and teaching humanity to become more wise, more free and more liberty-loving, to remind the people of our own country that the liberty of the citizen is only secure when trial by jury and in open court for any alleged offense involving punishment is guaranteed."

Killed by an Automobile.

Minneapolis, Oct. 29.—Frank Colby, about fifty years of age, a laborer, was struck by an automobile and killed while crossing Central avenue between Second street and University avenue southeast. The machine was driven by George Temple, a driver in the employ of the Pence Automobile company.

DEFENDS THE PAYNE BILL

Speaker Cannon Also Approves Taft's Winona Speech.

CUMMINS AN ALLY OF BRYAN

Iowa Senator Alleged to Favor the Views of the Nebraska Leader, Who is Accused of Advocating Tariff Revision to Force an Issue in the Presidential Campaign of 1912—Cannon Scores Newspaper.

Elgin, Ill., Oct. 29.—Speaker Joseph G. Cannon appeared in the role of the defender of the Payne tariff bill and of President Taft's Winona speech in an address at the opening of the annual convention of the Mayors' Association of Illinois. He depicted Senator Cummins of Iowa as the ally of William Jennings Bryan, while he declared that the Nebraska leader was advocating tariff revision to force an issue in the presidential campaign of 1912.

He insisted that the Payne tariff bill is the best tariff bill that has ever been enacted in the history of the republic, pointing out the turning wheels of industry as his proof. It represented, he averred, the will of the majority in congress who supported the rules under which it was passed.

He questioned the truth of the newspaper correspondents reporting an alliance of six Republican representatives of Illinois to defeat him and denounced the press of the country. He declared that Representative Mann of Illinois was the best legislator in congress.

Protects Existing Industries.

"We passed the Payne tariff bill," he said, speaking of the tariff. "It didn't suit me in every respect. It protects all existing industries, but did not found any new industries. A majority of the members of the house were in favor of that bill and I bowed to the consensus of opinion and voted for it, and I am ready to say with Taft in his Winona speech that it is the best tariff bill for protection and in every other particular that has ever been enacted in the history of the republic."

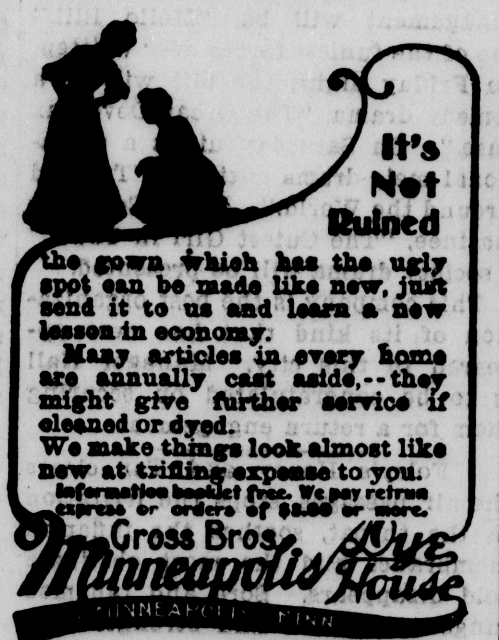

"The press of the country is performing a great mission," said Mr. Cannon, "but I have no patience with the editors of metropolitan publications who denounce any one and every one who does not believe as they do politically. We are learning to not believe that everything is true just because it is in print. If the editors of these papers could meet all the readers of their papers I believe that they would come to realize that they are no greater than you or I."

"I have been represented as a czar," he hurled as a parting shot. "Here I am. Do I look like one?"

He vigorously denied that his position as speaker was brought about through a deal with Tammany Hall. The speaker also asserted that Representative Fowler of New Jersey was dropped as chairman of the house currency and banking committee because of his refusal to report to the house the emergency currency measure.

Elephants.

Both sexes of the African elephants have ivory tusks, while in Asia these are restricted to the males.
